

DiversIT: Women in IT

Name

Juliane Scholze

Company & Role/Position

Product Ownerin KI/Automatisierung

@ Lecos GmbH in Leipzig

Career Path A brief overview of important career stages and experiences, e.g. career change

I studied Media and German at the University of Leipzig. Then I joined a digital agency, where I was responsible for implementing the first Facebook apps, complex apps for car manufacturers and several websites for large B2B companies. Today, I help digitise administration by streamlining processes and integrating AI as a tool in the right places.

My Successes e.g. volunteering, projects

With foodsharing.com I campaign less food waste. In 2018, I worked in an animal rescue center in South Africa. In 2022 I travelled through New Zealand and Australia.

Advice to Your Younger Self

Be brave and travel the world as early you can and inhale the freedom of travel.

Gratitude and kindness are not weaknesses.

How to reach me

☒ for Networking ☒ for Mentoring

Personal Inspiration e.g. quotes, personalities

Affirmation: „Doubt kills more dreams than failure ever will!“
Impressed by Oprah Winfrey & Dale Carnegie.

My Top 3 Topics

- # Digital Innovation
- # AI in everyday life
- # Lifelong learning
